Report on Add-on Course on Scratch Programming

**Scratch Programming** provides a unique environment for the students to develop and utilize their artistic and creative talents through the construction of eye-catching animations. During the training sessions, students worked together to complete certain projects, learn to plan, design and share tasks. They were encouraged to show and explain their completed projects to their fellow participants where critical analysis and compliments by fellow classmates are an integral part of the learning presentation and communication process.

130 students of I year, I Sem attended the Lab sessions throughout the semester and at the end they demonstrated their group project in the event named "**Game Expo 2022**". 25 teams participated and three teams were given first, second and third prizes. Prof. Reetu Gupta taught the course and coordinated the event Game Expo 2022.
