### Report on Soft Skills Training Program

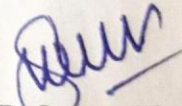

Date:05/04/2021

Shivajirao Kadam Institute of technology and Management , Indore organized a Training Program on "Soft Skills " on 18.03.2021 to 30.03.2021 to enhance the skills of the students. The speaker of Training Program was Prof.Molly Kundu , Assistant Professor, SKITM Indore(M.P.) , gives information about **Public Speaking, Group Discussion, Facial Expressions, Stress management., Soft skills characterize how a person interacts in his or her relationships with others** and also give advice to attend the courses and get certificate which will be beneficial for the students as well as faculties for career growth. She also solved the queries of participants and support through the QA Section found within the course . All the faculty members and students gave their valuable presence. Prof. Molly Kundu gave the vote of thanks and concluded the program.

1. You find out that the CEO of the hospital has just been admitted and happens to be your patient. Since you have worked with him before, you know that he is very authoritative and does not mingle much with others. Which of the following nonverbal cues would he expect that you observe?

- A. Use of gestures  
 B. Open posture  
 C. Extended eye contact  
 D. Closed posture

2. Which of the following are consistent with open posturing?

- A. Smile and direct eye contact  
 B. Sitting down near the bedside  
 C. The slight shift of body position towards individual  
 D. Using the word "Sir" or "Mom" even when the patient tells you not to.

3. The most effective way to discuss pain is expressed through which nonverbal cue?

- A. Eye contact  
 B. Gestures  
 C. Sound  
 D. Posture

4. Which of the following statements are true about verbal and nonverbal communication? Select all that apply.

- A. When they are not consistent or incongruent, the nonverbal message will most likely be the one received.  
 B. When they are not consistent or incongruent, the verbal message will most likely be the one received.  
 C. Nonverbal communication is as powerful as verbal communication.  
 D. Nonverbal communication is not as powerful as verbal communication.

5. At 2:55 pm, five minutes before the end of her shift, the nurse answered a call light only to find out that an ambulatory patient wanted her to look for the remote control so that he could watch an ongoing football game. The nurse replies: "I will call the PCT right now so that you can watch the game." The patient answers, "Why don't you look for it yourself?" And the nurse responds back, "I would if I could, but I do have a meeting after work, and I would not want them to wait for me." What do you call this style of communication?

- A. Authoritative communication  
 B. Aggressive communication  
 C. Assertive communication  
 D. Delegating communication

6. A frequent cause of misunderstanding

- A. Incongruence  
 B. Loquaciousness  
 C. Assertiveness  
 D. Silence

7. Which of the following statements is not true about touch as a nonverbal means of communication?

- A. Culture, age, sex, duration, and intensity of contact will affect the interpretation of touch.  
 B. It is always good to give a patient a back rub regardless of gender or age difference.  
 C. When you are comfortable with physical contact with a patient, touch has great potential for conveying warmth.  
 D. A small child who is scared by the hospital environment will respond better to being cuddled than to a verbal explanation of what is taking place.
