Northern Ontario School of Medicine and the University of Ottawa Medical School

Dear Sir,

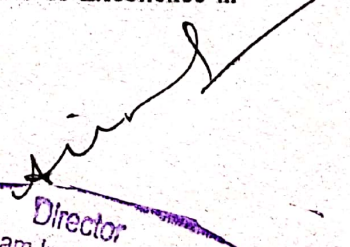

Transnational Knowledge Society was founded in the year 2008. The aim of the society is to elevate the region by providing high quality education at reasonable costs. Till now, the society has catered to over 8000 students, transforming their lives and the lives of their families. The management of the society was revised in 2019, with Dr. Shivajirao Kadam, Chancellor, Bharati Vidyapeeth Deemed University, Pune at the helm of its affairs as the Chairman of our Governing Body. The Erstwhile Acropolis Technical Campus has been rebranded as Shivajirao Kadam Institute of Technology & Management (SKITM), Indore, with an aim to transform the institute & provide world class education at affordable cost. Last year, we introduced courses in field of Pharmaceuticals & Professional Studies.

Currently, there are 4 Colleges under our aegis in the fields of Engineering, Management, Pharmaceuticals and Professional Studies, catering to over 1500 students from across the region. Transnational Knowledge Society through SKITM aims to impart highly impactful education, which helps students build successful careers. High focus on moral compass, societal transformation and the good of the industry are the messages which resonate our teachings. We aim to be instrumental in improving the educational standards in the city by setting an example of good governance and student centric approach. Our Governing Body and Advisory Board are being reconstituted as we look forward to the guidance of luminaries such as yourself, which will be instrumental in achieving the Vision & Mission of the Institute.

We stand by our motto of "Skill, Innovation, and Transformation" with a belief of providing world class education and empowering our students. On the behalf of the Chairman, Board of Governors, I invite you to kindly accept your Membership on our Board of Advisors. Your guidance will be instrumental in achieving our Mission of becoming a Center of Excellence in Central India.

We look forward to your Support

Transnational Knowledge Society was founded in the year 2008. The aim of the society is to elevate the region by providing high quality education at reasonable costs. Till now, the society has catered to over 8000 students, transforming their lives and the lives of their families. The management of the society was revised in 2019, with Dr. Shivajirao Kadam, Chancellor, Bharati Vidyapeeth Deemed University, Pune at the helm of its affairs as the Chairman of our Governing Body. The Erstwhile Acropolis Technical Campus has been rebranded as Shivajirao Kadam Institute of Technology & Management (SKITM), Indore, with an aim to transform the institute & provide world class education at affordable cost. Last year, we introduced courses in field of Pharmaceuticals & Professional Studies.

Currently, there are 4 Colleges under our aegis in the fields of Engineering, Management, Pharmaceuticals and Professional Studies, catering to over 1500 students from across the region. Transnational Knowledge Society through SKITM aims to impart highly impactful education, which helps students build successful careers. High focus on moral compass, societal transformation and the good of the industry are the messages which resonate our teachings. We aim to be instrumental in improving the educational standards in the city by setting an example of good governance and student centric approach. Our Governing Body and Advisory Board are being reconstituted as we look forward to the guidance of luminaries such as yourself, which will be instrumental in achieving the Vision & Mission of the Institute.

We stand by our motto of "Skill, Innovation, and Transformation" with a belief of providing world class education and empowering our students. On the behalf of the Chairman, Board of Governors, I invite you to kindly accept your Membership on our Board of Advisors. Your guidance will be instrumental in achieving our Mission of becoming a Center of Excellence in Central India.

We look forward to your Support

Last year, we introduced courses in field of Pharmaceuticals & Professional Studies.

Currently, there are 4 Colleges under our aegis in the fields of Engineering, Management, Pharmaceuticals and Professional Studies, catering to over 1500 students from across the region. Transnational Knowledge Society through SKITM aims to impart highly impactful education, which helps students build successful careers. High focus on moral compass, societal transformation and the good of the industry are the messages which resonate our teachings. We aim to be instrumental in improving the educational standards in the city by setting an example of good governance and student centric approach. Our Governing Body and Advisory Board are being reconstituted as we look forward to the guidance of luminaries such as yourself, which will be instrumental in achieving the Vision & Mission of the Institute.

We stand by our motto of "Skill, Innovation, and Transformation" with a belief of providing world class education and empowering our students. On the behalf of the Chairman, Board of Governors, I invite you to kindly accept your Membership on our Board of Advisors. Your guidance will be instrumental in achieving our Mission of becoming a Center of Excellence in Central India.

We look forward to your Support

Dear Madam,

Transnational Knowledge Society was founded in the year 2008. The aim of the society is to elevate the region by providing high quality education at reasonable costs. Till now, the society has catered to over 8000 students, transforming their lives and the lives of their families. The management of the society was revised in 2019, with Dr. Shivajirao Kadam, Chancellor, Bharati Vidyapeeth Deemed University, Pune at the helm of its affairs as the Chairman of our Governing Body. The Erstwhile Acropolis Technical Campus has been rebranded as Shivajirao Kadam Institute of Technology & Management (SKITM), Indore, with an aim to transform the institute & provide world class education at affordable cost. Last year, we introduced courses in field of Pharmaceuticals & Professional Studies.

Currently, there are 4 Colleges under our aegis in the fields of Engineering, Management, Pharmaceuticals and Professional Studies, catering to over 1500 students from across the region. Transnational Knowledge Society through SKITM aims to impart highly impactful education, which helps students build successful careers. High focus on moral compass, societal transformation and the good of the industry are the messages which resonate our teachings.
