Dear Dr. Yadav,

Bosch is a leading supplier of technology and services in the areas of Mobility Solutions, Industrial Technology, Consumer Goods, Energy, and Building Technology. Additionally, Bosch has in India the largest development Centre outside Germany, for end-to-end engineering and technology solutions. For over 60 years, Bosch in India has developed extensive expertise in the realm of occupational training. Since the establishment of Bosch Vocational Centre (BVC) in 1961, Bosch has successfully implemented the German 'Dual' Model of vocational training suited to Indian industry requirements.

In line with the direction given in the National Education Policy'20 and to support the agenda of 'Employable Vocational Education and Skill Development' in higher education, we are planning to support few selected Universities/Colleges/Institutes as a part of our CSR- Industry Academia Collaboration initiative.

The course contents developed by us towards the following topics will be provided to the selected educational institutes and one of the trainer will be trained, online, to deliver the material to the interested students. Have conceptualized following two initiatives and are in the process of identifying few interested and committed academic partner institutions, who wish to implement the same. We believe that each student in our country should take up these courses.

I.      Skill Entrepreneurship for youth

II.     Future Human Competencies ( Future Skills)

III.    The making of a developed country ( Soft Skills & right attitudes)

IV.     Social Responsibility

We are enclosing an 'expression of interest' form herewith. If you are interested to get more details about this initiative, please fill up the form (Interest letter), provide the contact details of one person from your institute and send this form to us. Subsequently, our representative will revert with further details.
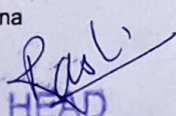

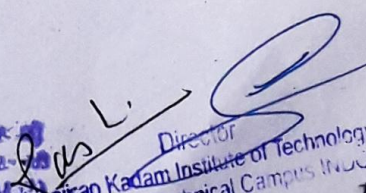

Thanking you and looking forward !
